Executive Search Capability Overview

Finding leaders with the capability to deliver what is next

WHO WE ARE

Your executive talent partner

We are a specialist executive search, talent intelligence and leadership assessment firm that works with boards, CEOs and executive leadership teams to identify, assess and appoint leaders capable of delivering the next stage of a company's growth.

Our work focuses primarily on senior leadership hiring and talent assignments, including:

- C-suite and executive leadership roles
- Confidential leadership replacement searches
- Succession planning and leadership pipeline development
- Strategic talent mapping of leadership markets

OUR APPROACH

Our work is built on three principles

01

Context

Leadership hiring decisions only make sense in context. We take the time to understand the business, its strategy and the leadership challenges ahead.

02

Capability

Experience alone is rarely enough. We assess leaders for judgement, adaptability and the ability to deliver results in complex environments.

03

Judgement

Executive hiring requires careful evaluation and clear thinking. We bring structured assessment and informed perspective to every decision.

The aim is simple: **to help organisations identify and hire leaders capable of delivering what comes next.**

SEARCH PROCESS DETAIL

Search Brief & Role Definition

> *The most important and impactful part of the search process is getting the work done up front.*

We ensure a deep alignment with the hiring leadership team on the following:

- business context and strategic objectives
- leadership expectations and required capabilities
- target companies and comparable roles
- compensation parameters

***Output:* A clearly defined search brief and target market.**

SEARCH PROCESS DETAIL

Talent Mapping

Talent mapping forms the foundation of every Leadership Quarter search.

We first build a comprehensive view of the leadership market.

- target companies and competitor organisations
- comparable executive roles and structures
- identification of relevant leadership talent
- career trajectories and organisational context

The goal is to ensure clients see the full leadership landscape, not just a narrow subset of candidates.

***Output:* A structured leadership market map.**

SEARCH PROCESS DETAIL

From *Longlist* to *Shortlist*

Qualified Longlist (10-20 candidates)

Following market mapping, candidates are discreetly approached and qualified.

This stage focuses on assessing the following:

- leadership capability and track record
- motivation and interest in the opportunity
- compensation alignment
- availability and potential timing

Shortlist Development (3-5 candidates)

Candidates are then evaluated in greater depth through structured conversations and capability assessment.

Client Engagement

Following **both** the longlist and shortlist, a debrief is conducted with the client to select preferred candidates, ensure alignment and drive next steps.

SEARCH PROCESS DETAIL

Client Interviews & Appointment

Leadership Quarter supports clients and candidates through the final stages of the search.

- Preparation and coordination of client interviews
- Candidate management and engagement
- Feedback synthesis and guidance
